

## Rosedale Replacement Baskets

Rosedale manufactures replacement bag filter baskets and basket strainers for a wide range of filter housings made by:

American Felt & Filter  
 Cuno  
 Commercial Filters  
 Filter Specialists (FSI)  
 Filtration Systems  
 GAF  
 Ronningen-Petter  
 Strainrite  
 Oakland  
 Plenty

We offer replacements for all current models, and any that have been discontinued by the original manufacturer.

These replacement baskets are made to specifications that equal, or exceed the original manufacturers specifications.

### Basket Construction

**STAINLESS STEEL:** Standard material is 304 stainless steel. 316 stainless steel is available as an option.

### Basket Media Selection

**PERFORATED STRAINER AND BAG FILTER BASKETS:** For cleanable basket strainers, choose from the following perforation diameters: 1/4, 3/16, 9/64, or 1/16 inch. For filter bag baskets: standard 9/64-inch diameter perforations with 51 percent open area are supplied.

Perforated

With wire mesh lining

**PERFORATED WITH WIRE MESH LINING STRAINER AND FILTER BAG BASKETS:** Stainless steel wire is used in mesh sizes 30, 60, 100, 150, or 200. When used as a bag filter basket, the following advantages are realized:

- Fiber migration is minimized.
- In the unlikely event of bag rupture, the wire mesh contains the contaminant.
- Bag material cannot become "lodged" in the perforations due to extreme pressure differential.
- Flow characteristics are enhanced when using monofilament bags.
